

### Go LNG

LNG Value Chain for Clean Shipping, Green Ports and Blue Growth in Baltic Sea Region

## Project content structure

**BSR Blue** corridor strategy **BSR LNG** Business Cluster

**BSR LNG** competence center

Integrated value chain study

Functioning business network

**Training** programs

LNG fuel distribution strategy

R&D

Training and research infrastructure

LNG Standard and regulation toolbox

Study visits

Service package

LNG shipping index

B To B meetings

Network of training institutions

LBG business concept

Business plans and pilot projects

#### Blue corridor strategy

The aim of the Strategy is to establish strategic approach of LNG infrastructure development and mobilize the critical mass of technology, business partnerships, and regulative authorities to implement LNG powered transport networks in BSR.

http://www.golng.eu/en/bsr-blue-corridor-strategy/

We will provide a model on how LNG infrastructure should be deployed in order to establish LNG powered transport corridors for Maritime; Road; Rail;.

#### **BSR LNG Business cluster**

- In order to apply Integrated LNG Value Chain and enable LNG powered transport
  corridors in BSR project aims to establish BSR LNG Business cluster. Cluster will
  help to gather and establish the critical mass of business to facilitate service, finance,
  technology and innovation for deploying LNG infrastructure, applying LNG as a fuel
  utilizing the Regions environmental challenges in to the business opportunities.
- Business opportunities
- Collaboration platform
- Innovation
- Experience, Knowledge, Competence

http://www.golng.eu/en/baltic-lng-cluster/

We have build and efficient and sustainable business network.

#### **LBG**

Project will aim at establishing value chain, technological concepts and business models in order to enable coastal communities to produce and supply Shipping and Port energy consumption. This will ensure sustainability of LNG infrastructure and economic grow in the coastal communities

- Sustainability of LNG infrastructure
- Technology
- Business model

http://www.golng.eu/en/lbg-in-bsr/

With LNG it is clean, with LBG sustainable, both together reliable clean energy source.

# Thank You Andrius Sutnikas
