

LNG Value Chain Seminar - Enabling a flexible value chain with the UTS®

September 11th 2018

The world needs more and cleaner energy

**The world
needs LNG.**

Existing terminal solutions are too expensive

UTS[®] jettyless transfer system

- ✓ Minimal footprint
- ✓ Significant cost savings
- ✓ Short Lead Time
- ✓ Re-location is simple

First UTS – “la Santa Maria”

Client and partner:

Naturgy 

First UTS – “la Santa Maria”

Day 0 – Empty site

Day 1 – Installation

Day 2 – Naming Ceremony

Day 3 – LNG transfer

End of day 4 – empty site

First UTS – “la Santa Maria”

Application areas

Ship to onshore facility

Small-scale re-export

LNGC to FSU/FSRU

Bunkering

UTS for bunkering

UTS for large scale applications

An aerial photograph of a large red and white LNG tanker ship docked at a dark, possibly offshore, platform. A smaller tugboat is positioned alongside the tanker, connected to it by a complex system of pipes and machinery. The tanker has "L N G" written on its side. The scene is set against a dark background, likely the sea at night or in low light.

GO JETTYLESS - with UTS[®]

Universal Transfer System by Connect LNG
