

MarTech -LNG

**Marine Competence, Technology and Knowledge Transfer
for LNG (Liquid Natural Gas) development in the South
Baltic Sea Region**

We are aiming at developing LNG as a business opportunity

Our project's policy framework....

Funded by the EU South Baltic Programme

- Enjoys the status as a *Flagship Project* in the *EU Strategy for the Baltic Sea Region*
- The *Flagship* status helps e.g. to gain political attention and to meet other projects in the field
- Is a part of the Strategy's *Priority Area on Clean Shipping (PA Ship)* coordinated by the Danish Maritime Authority

Project Structure

WP-3 LNG Knowledge and partnership platform

- Scientific LNG competence map
- LNG business capacity map
- Regional LNG knowledge development groups
- LNG Knowledge and partnership platform
