Ship to Norway

LNG – important for Norwegian
Ports?

Director Arnt-Einar Litsheim

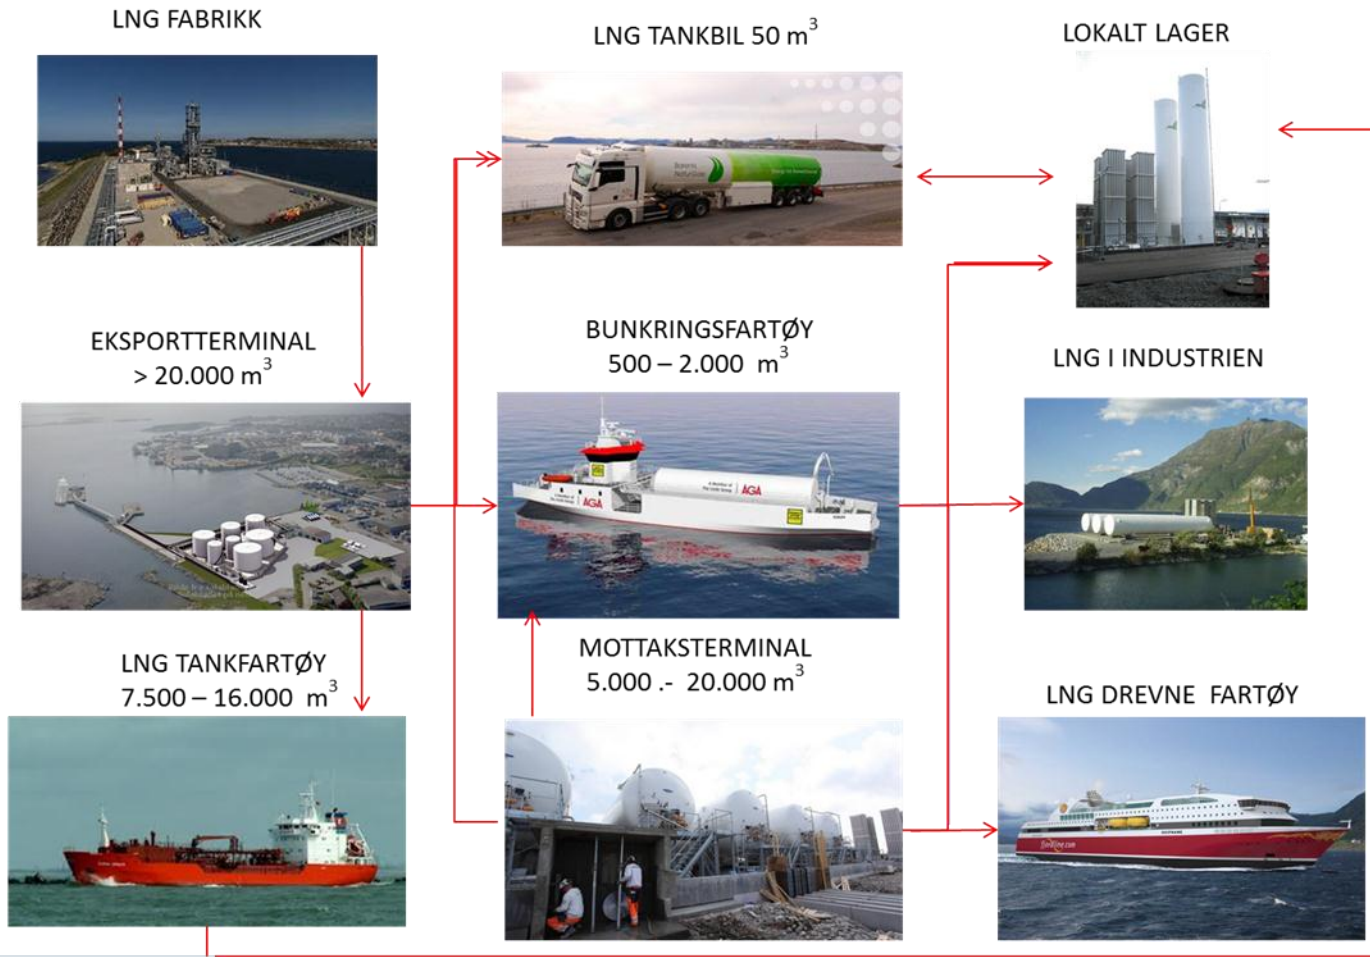

Our main purposes – gargo from road to sea

- Focus the last five years
- Something is changing
- A strategy for shortsea shipping and maritime industry released aug/sept this year
- Sentral key is environment
- LNG is one solution to reduce the consequences of NOX. AND to avoid the consequence of groundings

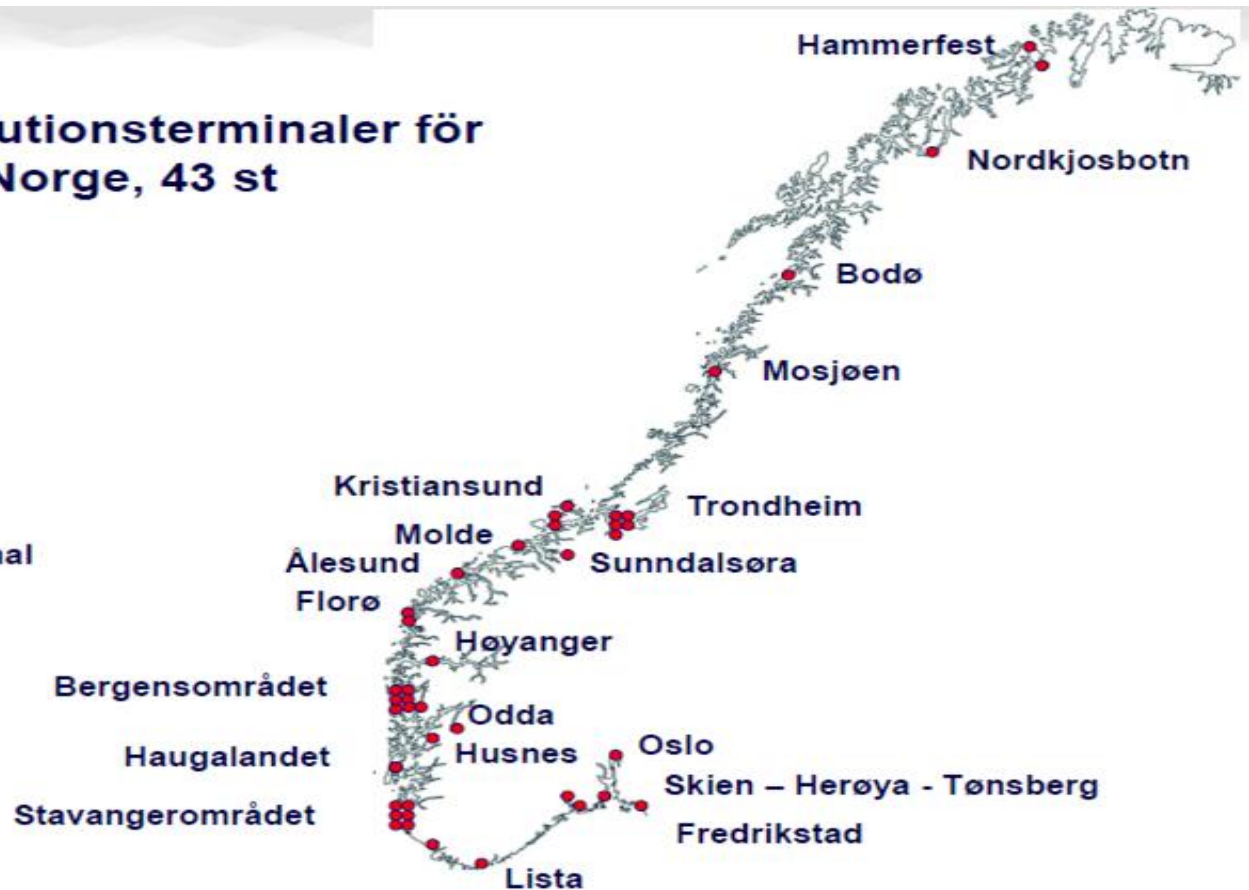

LNG as a value chain

LNG plant/terminals

Distributionsterminaler för LNG i Norge, 43 st

• LNG terminal

What have to be done

- New and more environmental friendly fleet – LNG ship
- NOX fond supporting
 - Transform new engines
 - New ships
 - Plant/terminals in ports
- LNG as a part of the Ports infrastructure
- Norwegian Ports Association - a guarantor and promotor for better condntions

Thank you for your attention!
